

FCC,

In my community KLOVE serves as an emotional uplifting part of my life, as I'm sure it is with other people. I have found it very comforting. Several people in my area I have talked to agree with me. If KLOVE were replaced it would be a lost asset in many lives, and a disappointment to many people, myself included. I have the opportunity to talk with many people each day, and I have conversed with people that agree KLOVE is a public interest and should be kept on the radio. Please allow KLOVE to flourish and keep it on the air. America needs it. Thank you for your time.
